We publish elswhere an official notice of the organization of the Commissioners on Claims; also the Rules and Regulations which they have adopted to guide them and claimants in the investigation of esses and damages under the late law of the Legislature. Every reader must be favorably impressed with the justness of the programme laid down. As the Commissioners have to close their labors by the 1st of July, it is necessary they should go to work immediately.

THE American Trades Company, was THE American Trades Company, was organized November 8, 1877, with a Capital of one hundred thousand dollars. This Company was formed with a view of taking up inventors of small articles of general utility, who are unable to make independent arrangements for introducing their inventions, by an equitable arrangement with them for their rights by purchase, out and out or by a tariff on the articles manufactured and sold. The inventive genius of this country has long called for an institution of this kind. The American mind is so active, that thousands of things are invented, many of which would be really useful to the community, but which are never introduced, because the inventors of them have no means to carry them out.

The Capital of this Company will be devoted to the development of really useful inventions.

The Company have a Committee on Patents, whose duty it is to pass upon all applications, and from their large experience in such matters. Inventors have a security that their inventions will not be misjudged; and the high character of the parties composing that Committee, is a sufficient

BRATTON HOUSE,

The Lawrence Nursery Is situated two miles west of Lawrence on the Lawrence and Lecompton road, or perhaps better known as the California road.

In offering our Trees for sale, we have but a few words to say. Particular attention has been paid to their cultivation, in order to keep them in good shape for setting in order form. The soil on which they are grown being good and worked deep, they are uncommonly well rooted, having a large amount of fibrous roots.

We have spared nopains in obtaining the best varieties of
